Introductory White Paper/Use case

1. WHAT IS DAREXTRAVEL?

DarexTravel Cryptocurrency Token

is used to provide a decentralised payments solution which solves travel needs around the globe. We plan to create multiple chains of ecosystem to bring DarexTravel tokens "Dart" for mass adoption. Our decentralised tokens are used for decentralised e-commerce, fast payments, merchant adoption, travel reward integration. DarexTravel will solve high fee transaction payments from using credit cards during international travel, as well as international payment transfers, we can solve this by creating a bridge between the real world and digital currency.

We plan to adopt international businesses within the travel spectrum to participate in this revolutionary project. Our online booking platform is the beginning of the stages to help implement decentralised currency into real world use.

[Website - http://www.darextravel.com/](http://www.darextravel.com/)

Travel & Holiday intermediary platform

“DART” Decentralised token

- **Users can be rewarded by purchasing flights through our online booking platform.**
- **Each client who purchases holiday tickets/packages will be rewarded with “DART” tokens as part of the loyalty program and mass adoption marketing strategy.**
- **Each client can use “DART” tokens to buy products through our very own E-commerce online decentralised shopping platform (Will be integrated stay soon). You can purchase all related items for traveling goods e.g. Luggage, neck rest, passport wallets etc.**
- **Trade our Decentralised currency through current exchange <https://cryptohub.online/market/DAREXTRAVEL/> for BTC pairing. More**

exchanges will be acquired as the project progress. They can use this platform to exchange pairing to fiat.

- Use “DART” tokens to book reservations (value equivalent total to price of product) within our intermediary online travel platform.
- Payments for Domestic and International accommodations with “DART” token through our DarexTravel Platform.
- Exchange/Pay with “Darts” token for services with members around the world
Examples are –
 - a. Room or BNB accommodation
 - b. Travel/tourist guide (local or business)
 - c. Car hire or ride services (not using uber or taxi fare)
- Adoption of our very own “DAREXTRAVEL” Debit Card for world use payments. (order these online in our ecommerce platform)
- Our very own DAREXTRAVEL online secured wallet
<https://darextravel.github.io/wallet/>

Where you can store, transfer and trade your ‘Darts’ Token for WAVES/BTC pairing without signing into a registered exchange using “DEX” exchange platform.

2. ONLINE BOOKING REWARDS

- 2.1 customers can accumulate rewards by using our own online travel intermediary flights/holiday platform. Reward quantity is determined on how much the cost of monies spent for a product. Customers can create their own ID account which “DART” tokens will be transferred to for customers own discretion of use. Promotional rewards will also be advertised to create adoption for the project.

3. DAREXTRAVEL E-COMMERCE DECENTRALISED PLATFROM “D.E.D.P”

- 3.1 DarexToken will provide a full decentralised e-commerce platform. “DART” tokens can be used to purchase goods and services. Backed by waves e-commerce Technology.
- 3.2 Private vendors can also integrate their e-commerce product and services shop by requesting through our registry approval system. (Security & background check for legitimacy of business operations)
- 3.3 Strong potential to acquire businesses who sells travel related product and services within the DarexTravel ecommerce decentralised platform.

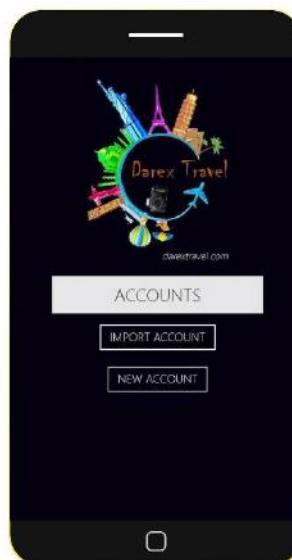

4 DECENTRALISED EXCHANGES

- 4.1 Currently we have acquired listing in Cryptohub exchange, this creates a small following of adopters/investors. With the project being developed by a new aspiring and motivated team, traction of new investors will lead the project to enter new exchanges to benefit the project long term.
- 4.2 Each exchange has different prices of entry, but with volume we have allocated funds to enter those exchanges and accommodate more volume to the project.
- 4.3 Technical Development team will create Protocols which enables a gateway between Waves and ERC20 tokens to be able to list the project on multiple exchanges.

5 DAREXTRAVEL LITE WALLET

- 5.1 Users can create a log in username and password using DarexTravel lite client wallet. It includes multiple wallet addresses to help consolidate your cryptocurrency into one safe, fast and secure blockchain. (Backed by waves platform)
- 5.2 “Dex” – Decentralised exchange is also integrated as part of the technology behind DarexTravel Tokens. “Dex” Enables token trades that don’t require tokens to be transferred from your blockchain account to a separate exchange. Its safe and secure platform.
- 5.3 USD wallet is also available within this wallet. More currency pairing can be added to our DarexTravel lite wallet.

6 PEER TO PEER EXCHANGE

6.1 Clients/investors can trade “DART” tokens within each other without the consent of any third party. This will enable to the token to have significant value other than market price.

6.2 You can use it to tip, pay or donate tokens to any party around the world within minutes. Its safe, secure and completely decentralised.

6.3 Send funds to national or international recipients within minutes, with minimum fees. Day to day transactions that can be sent around the world within minutes with very minimal fees.

Waves platform is the most under rated cryptocurrency platform operational to date. DarexTravel has chosen to build over the platform for its security, speed, transfers (in minutes) and reliability.

With Waves technology constantly developed, our project team believes that the platform has many additional technologies to come.

7 DAREXTRAVEL DEBIT PAY

7.1 DAREXTRAVEL will introduce its very own travel “DART” debit card which can be bought with “Dart” credits on our online e-commerce platform. This enables clients to purchase goods and services in our decentralised store, store funds like a paper wallet and pay in real world. Our travel debit card will eliminate the inconvenience of exchanging currencies prior to your trip with little to no fees.

- Debit Card will be introduced during road map completion. And can be ordered from our very own e-commerce decentralised store.

7.2 Client/investors will acquire a debit card strictly for DAREXTRAVEL coins only. This technology will bring adoption to the project and worldwide business integration.

7.3 Client/investor can purchase debit card through our online e-commerce platform.

Clients can purchase debit cards with different designs to suit everyone’s taste.

7.4 DarexTravel debit card will be paired Fiat Currency within our platform and within your own wallet.

7.5 Clients can transfer funds to debit card and lock in Fiat currency exchange rate using out currency converter applications. This will enable users to travel the world without the hassle of exchanging currencies when traveling and also eliminates high fee transactions.

7.6 Debit card can also be used as a offline “paper wallet” to store cryptocurrency using QR code system that contains your wallet address.

(Full instructional material will be available once Debit Card road map is completed and released to the public)

8 MASS ADOPTION MARKETING

DarexTravel online travel intermediary platform and DarexTravel “Dart” will help tokens will solve every day travelling inconveniences forever. With key tools to enable easy adoption, the project is very promising.

With the new generation acquiring and adopting cryptocurrency as a whole, DarexTravel is positioned to a specific niche and have the potential to be adopted by everyday people.

We are exploring different avenues that we can partner up with to help our world use case become more achievable. Travel is one of the world’s leading businesses to date. Providing a simple solution to help the new and old generations using the blockchain technology.

8.1 MARKETING PLAN

- Strategic competitions relating to travel.
- Paid influencers, personalities and community models.
- Promotional videos, social media advertising
- Travel campaigns and sponsorships.
- Business partnerships within travel and relevant industries for adoption and promotional purposes.

9 WHAT IS WAVES PLATFORM?

DarexTravel cryptocurrency is built on the safest and most secured cryptocurrency to date. With no hacking reported within its system.

Waves is an [open-source blockchain](#) platform, developed, marketed and operated by Waves Platform AG, which allows users to launch their own custom [cryptocurrency](#) tokens. Whilst other popular cryptocurrencies such as [Bitcoin](#) and [Ethereum](#) can be traded on external exchanges, and Ethereum allows users to create new tokens on the platform using a [smart contract](#), Waves includes this functionality in its core software and wallet. Users can create, transfer and exchange blockchain tokens on a peer-to-peer basis, paying transaction fees in the native WAVES token.

10 NEW TEAM & COMMUNITY DRIVEN PROJECT

DarexTravel Cryptocurrency was launch from ICO march 16, 2018. Working with the original developer, the new community development members have combined their individual skillsets to help make this unfinished project a reality. Working with a motivated new team, DarexTravel will finally fly in the sky and allow travellers around the world to be exposed to cryptocurrency's advancing technology.

The project was dormant and has been re founded by our marketing specialist and original project developer (Full team members will be revealed please refer to road map).

Subsequently is has ignited the potential world use of the project and has created an enthusiastic and incredible team around them to complete what has been started.

10.1 OUR LONGTERM GOAL

Our goal is to acquire businesses/organisations around the world to adopt our world use technology within their respective business and niche sector in the travel industry.

This will enable the project to be fully expand and influence decentralised world use around the globe. We are very confident and eager to implement all plans within the project and market them around the world.

Travel is one of the most booming industries within the 21st century and we want to solve incurring problems within it.

One problem that we are solving is third party governing entity that provides high taxing rates for international travellers when they use credit cards or sending money. Solving this basic problem can provide financial freedom for the new generations to come.

11 OUR ROAD MAP (1of 2)

Our team goal is to complete part 1 of 2 of the road maps before publishing our second Roadmap for DarexTravel
Next Roadmap Release will be in December 2018

11 STRATEGIC PARTNERSHIP

DarexTravel will strategically acquire project partnerships within the cryptocurrency world to enable further progression to achieve real world use case.

By working with key projects, DarexTravel can obtain mass following and financial backing to participate in real-world programs for mass adoption.

1.1 GLOBAL BUSINESS PARTNERSHIP

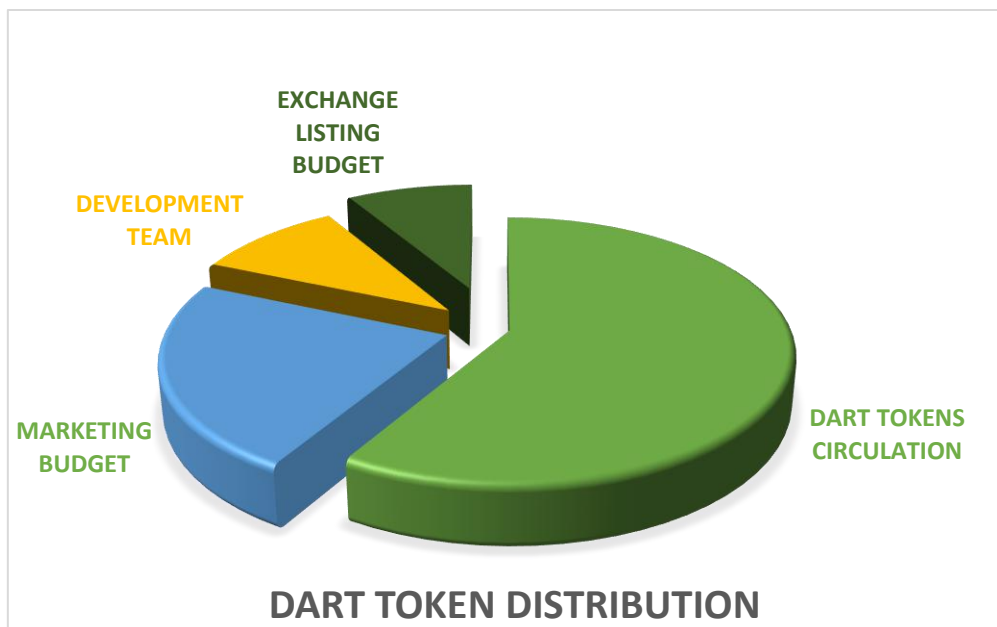

DarexTravel project aims to participate in the global travel industry by providing a bridge between cryptocurrency and the global travel platform, this will solve difficulties of high transaction when exchanging currencies between one country to another. Once the project has achieved a completed products and technology, we then can approach small and large global companies to participate in this revolutionary movement.
