Diving deeper here's what we also solve

- **CANCELLATION OF AN EVENT OR A BOOKED PARTNER**

Cancelling of any kind will trigger the Smart Contract functionality that returns the EVED Tokens to their owners.

- **BOTS & RESELLERS**

We'll take care of the bots and resellers by providing clear rules for the smart contracts that operate the ticketing process.

- **COMPARE PRICES**

The event organizers will be able to compare the prices of different vendors and subcontractors and will get the best value for their money.

- **LACK OF CAPITAL FOR AN EVENT FUNDING**

We'll offer a "Crowd Funding" Smart Contract Functionality that allows for an event to be tested or "Crowd Funded" with the help of Partners & Attendees.

- **FOLLOWING YOUR STAR MADE EASY**

The B2C Platform will create interactive environment where the fans can follow the entertainers and keep track of new ventures.

- **EMERGING TALENTS**

The Labels & Managers will be able to discover, to track the performance of, and to recruit different emerging stars.

And many more....
