

HASHBX

WHITE PAPER

One of the best Cloud mining service provider and implement crypto lifestyle platform.

Hashbx 4 page Summary

Currently, the business in the Cryptocurrency market is popular. In terms of investment and in terms of trade is well known. To acquire Cryptocurrency is two factors: Mining and trading

Because the ASIC price is quite high. Sale of machine and managing after sales service is quite difficult. Because the machine is at the customer A lot of settings need to teach and the machine must be turned on all the time. This causes heat problems and electricity is equal to 18,000 BTU air conditioner per unit .

It is a great barrier to selling out the machine. The company saw the opportunity to build an ASIC facility for Cloud Mining with a capacity of 2 megawatts on an area of over 30 acres to provide services for those who want to mining crypto currency. But no knowledge of Blockchain technology or knowledge of the ASIC. We also have the confidence to let users access our Mining site at any time We can say that we are the one and only crypto mining farm in Thailand that open to the public .

HashBx Global Official launch of by imported the machines ASIC (Application specific integrated circuits) from the Bitmain manufacturer of Antminer and owner of Antpool the world's largest hashing pool on July 7, 2015. At the present Hashbx Global Headquarters is located at No.90, CW Tower, Unit A, 3002-3, 30th Floor, Ratchadapisek Road, Huaikwang, Bangkok Thailand 10310 and has a branch office at Phanat Nikhom to place ASIC machines. Hashbx's Mining farm allows visitors to visit the place and see the machines. This is to eliminate the problem of the business of cloud mining, which is a matter of credibility itself. When asked about how to solve the problem of the image of the Cloud Mining that is currently considered a negative because there are many that were created just a website. No machine exists. And there are other safety measures. In other words, the user's bitcoin are stored in cold storage

What is HBX Coin in the system of Hashbx.io ?

HBX project is created HBX for people who are interested in cloud mining using HBX coin to purchase Hashing power and other services with HashBx's partner. HashBx will arrange to have more partners to join with HBX Coin in Ecosystem by the concept of Eat Shop and Travel with MoveX. Whoever hold HBX coin will be able to gain right of discount of purchasing hashing power and products of HashBX's partners like Hotel , resort , restaurant and supermarket etc .

The private sale was launched on December 5, 2017 and ended on April 5, 2018 with a total of 228,678 HBX and a private sale. The digital asset is a complete Token Utility a utility Token is a digital coin. Usable as coin issuer determines Digital coin. This category is intended to be used to access certain applications, platforms, or services that are initially defined, such as those used to purchase items in designated applications. The company has a policy of the number of HBX coins issued in the 7th day of each month ranged from 12 months to 12 months. At the end of 12 months, HBX totaled 936,665,088 HBX, from 1,000,000,000 HBX. HBX was split to 2 Part : 31,667,456 HBX for Developers and 31,667,456 HBX for Marketing and Public Relations HBX Coins by HBX was created to pay for Cloud mining services in Hashbx.io system, Where user can deposit Bitcoin (BTC) into the system to get HBX .
