

***HOMEBLOCKCOIN***

# Whitepaper

This is not the final version of the HomeBlockCoin whitepaper. There won't be any significant changes but we will add more information as soon as possible.

HOMEBLOCKCOIN

# About HomeBlockCoin

HomeBlockCoin is a decentralized self regulated financial payment network created for users that want to be independent from third parties like banks or the government. No middlemen or other institutions are needed for processing transactions. HomeBlockCoin is a cryptocurrency to change the financial world in the future. The HomeBlockCoin network runs without having any central servers. It is easy to use and allows you to benefit from the blockchain technology. That means that money can be sent from A to B within seconds, without any fees.

All HomeBlockCoin transactions are anonymous. Every HomeBlockCoin user can see every transaction in the blockchain. It is public for everyone. But it is not shown which transaction is done by whom. Each user can choose whether his name will appear or not. This known and new technology revolutionizes the whole financial system. No other institutions like the government are needed for sending money from A to B. Banks can go bankrupt and lose your money by making bad deals and big companies can sell customer data without getting consent. HomeBlockCoin and the technology of this network avoids problems like these.

# What is HomeBlockCoin

The number of coins is limited. The HomeBlockCoin supply will only have 28 million coins worldwide, this resembles an economic system based on deflation and with increasing supply coin, HomeBlockCoin prices tend to rise, when the demand is high and the number of coins that remain is not increased.

HomeBlockCoin uses the Blockchain database is not controlled by a party, but is so open to the public that it is impossible for someone to forge transactions in Blockchain. All transactions are recorded live, transparent, and spread across multiple servers.

It is impossible to hack, change or falsify HomeBlockCoin. Because of the Blockchain technology multiple servers must be hacked at the same time. This is not possible. So HomeBlockCoin is a safe and independent currency.

The special to HomeBlockCoin is the name. This is because of his extraordinary ability to be mined by every HomeBlockCoin user easy and uncomplicated from home.

# Specification

Name	HomeBlockCoin
Symbol	(TBA)
Total supply	28,000,000
ICO	5,000,000
Decimal place	8
Mining pool	Yes
Algorithm	X11
ICO date	4th of November 2017
Price	Start \$ 1.0
Time zone	London (GMT)

# ICO

Displayed in the diagram below you can see where the financial resources flows to. HomeBlockCoin is investing massively into marketing and advertising in social media, such as among Facebook, Youtube or influencer.

# Initial coin offering

The initial coin offering (ICO) of HomeBlockCoin will be launched on 4th of November 2017 to 23rd of November 2017 by selling 5,000,000 HomeBlockCoins for 20 days. Keep in mind, that just the first day of buying HomeBlockCoin is unlimited per person and we will inform you in your backoffice as the price will be on demand.

Date	Rounds	Coins available	Price	Limit in coins pp
04.11.2017 10pm	1/5	250,000	\$ 1.00	No limit

# HomeBlockCoin lending profits

Lending amount	Interest (accured daily)	Capital back
\$ 100 - \$ 1,000	Volatility software interest	After 239 days
\$ 1,001 - \$ 5,000	Volatility software interest <b>+0.15% daily</b>	After 179 days
\$ 5,001 - \$ 10,000	Volatility software interest <b>+0.25% daily</b>	After 120 days
\$ 10,001 - \$ 100,000	Volatility software interest <b>+0.30% daily</b>	After 99 days

# Pre lending incentive

On every lending deposited between the 25th of November 2017 and the 1st of December 2017 10 pm, you get an additional 0.15%.

Lending amount	Interest (accured daily)	Capital back
\$ 100 - \$ 1,000	Volatility software interest +0.15% daily instead of 0.00%	After 239 days
\$ 1,001 - \$ 5,000	Volatility software interest +0.30% daily instead of 0.15%	After 179 days
\$ 5,001 - \$ 10,000	Volatility software interest +0.40% daily instead of 0.25%	After 120 days
\$ 10,001 - \$ 100,000	Volatility software interest +0.45% daily instead of 0.30%	After 99 days

# Lending

Lending is to invest your own HomeBlockCoin to get a daily return from the management of HomeBlockCoin. Lending is the opportunity to get daily return on your HomeBlockCoins. It is an impressive concept for passive investors and for those who want to enjoy a daily passive income.

No fixed daily interest rate can be guaranteed. The maximum interest rate is 48% per month on your investment. When the contract expires then the investment fund will be returned in accordance with terms & conditions.

You can invest HomeBlockCoin coin in our lending platform from your dashboard. This investment option allows you to profit from the HomeBlockCoin trading bot and the volatility software. This bot buys and sells HomeBlockCoins automatically.

You will receive daily profit based on your investment. You will receive your capital back with the profits on the following chart. You can take out your capital from HomeBlockCoin lending platform or reinvest at any time.

# Affiliate

With HomeBlockCoins attractive refer and affiliate program you can earn additional Bitcoins by telling other users about this opportunity and referring them to HomeBlockCoin community.

We are offering a bonus program which enables you the possibility to earn more for every new user who signs up and joins to HomeBlockCoin lending platform using your affiliate link.

HomeBlockCoins affiliate program is designed with 7 lucrative levels to earn additional commissions by every registered partner. You will earn a commission every time a referral lends HomeBlockCoin on our platform through your affiliate link. With the residual bonus you earn a commission on every interest your partner gets (every day). The commission you earn is based on the level your partner signs in.

Level	<u>Referral</u> bonus from lending investment	<u>Residual</u> bonus from lending interest
1.	8%	5%
2.	3%	1%
3.	2%	1%
4.	1%	1%
5.	1%	0.5%
6.	1%	0.5%
7.	1%	0.5%

# Affiliate

Level	Referral bonus from lending investment	Residual bonus from lending interest
1 	8%	5%
2 	3%	1%
3 	2%	1%
4 	1%	1%
5 	1%	0.5%
6 	1%	0.5%
7 	1%	0.3%

# Mining

The special to HomeBlockCoin is the name. This is because of its extraordinary ability to be mined by every HomeBlockCoin user from home. It is said, that it is impossible to create gold at home. You have to work hard to find it. HomeBlockCoin works in a similar way. With the big difference, that your mint is your home. With the technology of HomeBlockCoin you are able to create HomeBlockCoins with your computer.

Do you own a device with internet connection?

With HomeBlockCoin's software you are able to mine your coins easily and comfortably from your favorite place. Every day whenever you want. All you need is a computer, a tablet or your laptop and an active internet connection.

HomeBlockCoin can be mined with X11 algorithm .To earn a reward through PoW mining HomeBlockCoin, download the HomeBlockCoin wallet for your operating system.

# Staking

With the staking program of HomeBlockCoin you are able to earn daily interest on your HomeBlockCoins.

By downloading a special HomeBlockCoin wallet you can begin staking HomeBlockCoin and watch your interest grow. The more coins you hold the more interest you earn.

Duration	Interest
1st 6 months (December 2017 to May 2018)	60% (10% per month)
2nd 6 months (June 2018 to November 2018)	50% (8% per month)
3rd 6 months (December 2019 to May 2020)	40% (7% per month)
4th 6 months (June 2020 to November 2020)	30% (5% per month)
5th 6 months (December 2020 to May 2021)	20% (3% per month)
6th 6 months (June 2021 to November 2021)	10% (1.4% per month)

# Explanation of Roadmap 2018 Updates

As we have recently updated our HomeBlockCoin roadmap, we would like to take a closer look at what are the most important and progressive milestones of the 2018 roadmap. This statement details the 3 „highlights” in the first two quarters of this year.

# HomeBlockCoin Cloud-Mining Solutions

## Objective:

### HomeBlockCoin Mining by Burst

Become one of the largest hard disk cloud miners through Burst mining.

Burst is mined by providing hard disk space. Basically, therefore, everyone who has free memory space can mine the coin from home.

Through the HBC cloud mining solutions with burst mining, HBC finds one of the first applications. It will be possible to purchase mining power, or in this case memory space directly from the back office. This memory space can be paid only with HomeBlockCoin.

By purchasing „mining power“ in the back office, real Terabytes in form of Hardware are purchased. These are supplied and plotted in a hall with maintenance, insurance, cooling and power supply. Every TB of mining Power is plotted and ready to mine. In its own Burst mining pool, it is possible for every user to view the memory space and the obtained blocks. Thus, the control over any mining revenue is available at all times. Contracts have already been signed with major disk manufacturers. In this collaboration, the implementation of the largest hard disk cloud mining is now implemented.

## Advantage for the customer:

In addition to HomeBlockCoin, every HBC member who uses the HBC Cloud mining solutions also earns Burst Coin through mining. HomeBlockCoin offers a real-world product and finds great additional usage. At this time, a provisioning is planned for every purchase of HBC cloud mining. Thus, a further earning opportunity is created and the benefit of each HBC is supported.

# HomeBlockCoin Bundles (Node) Concept

## Objective:

Deploy a node system by holding an exact amount of HomeBlockCoins (one node/bundle) which generates additional profits to lending/mining/staking.

With HomeBlockCoin Bundles we introduce a completely new node System which you can participate from HBCs Transaction and Internal Exchange fees.

A HomeBlockCoin Bundle will require 500, 2,500 or 10,000 HomeBlockCoins which is locked for 30, 60 or 90 days. At the point the HBC Bundles system is released an upgraded interface in your back office will make „bundle“ your HBC possible as soon as the amount of coins you hold qualify for these rewards. Users lock-in their coins 500, 2.500, or 10,000 HBC and in return they will receive interest based on the number of units frozen. The rewards depend on how much transactions are on the HBC Network and how much trading volume are on the internal HBC exchange.

## Advantage for the Costumer:

With the HomeBlockCoin Bundles (node) concept a further income opportunity is created and HBC finds another way of use. With this option, the community will be reimbursed for the transaction fee and the fees incurred by an Exchange.

# Online Shop Payment Solutions

## Objective:

The goal of Online Shop Payment Solutions is to create the first real payment connection for HomeBlockCoin.

Through this external connection, it is possible to integrate HomeBlockCoin as means of payment for the first online shops. Now, for the first time in 2018, it will be possible to buy physical and digital products in online stores and use HBC for real transactions.

## Advantage for the customer:

This online shop solution enables the customer to find a real benefit for their HomeBlockCoins. An exchange point that changes real goods for HBC is created and the benefits and value stabilization of HomeBlockCoin is supported.

# Consideration

The Investment is always risky, so you should read for all details and register directly on the website of HomeBlockCoin by yourself. Please do not believe in other people or ask someone else to invest for you to prevent muggers to deceive and impersonate HomeBlockCoin.

All investors are required to register directly on HomeBlockCoin website and invest by their money only. HomeBlockCoin do not have a policy to be invested in other channels, apart from HomeBlockCoin website.

# Welcome on board
