Space Token (SPACE) Whitepaper

Space Token (SPACE) is an innovative Binance Smart Chain Token that maximizes profit with DeFi Yield Generation and Crypto Earning Systems. Space Token has been created with a progressive, automatic burn mechanism to create a bridge between our product and our goals.

Use Cases

1- SPACE as official Final Autoclaim's Utility Token.

Final Autoclaim is a famous crypto earning website which allows users to earn up to 50 different cryptocurrencies. With around 250.000 members, Final Autoclaim offers many different ways to earn cryptocurrencies, including surveys, staking, app-installations and video-watching.

Many of SPACE use-cases will be implemented to Final Autoclaim in the future.

Final Autoclaim's link : <https://autofaucet.dutchycorp.space>

Available Features

- Autoclaim reward bonus (from 2% to a 100%) for each Space Token on-chain Holders

Roadmap Features

- Staking reward bonus (from 0.5% to 20%) for each Space Token on-chain Holders
- Exclusive SPACE roll game faucet
- Discounts for Banners and Pay-To-Click advertisers buying campaigns with SPACE
- Discounts for Silver, Gold and Platinum Memberships bought with SPACE

2- SPACE Liquidity Mining

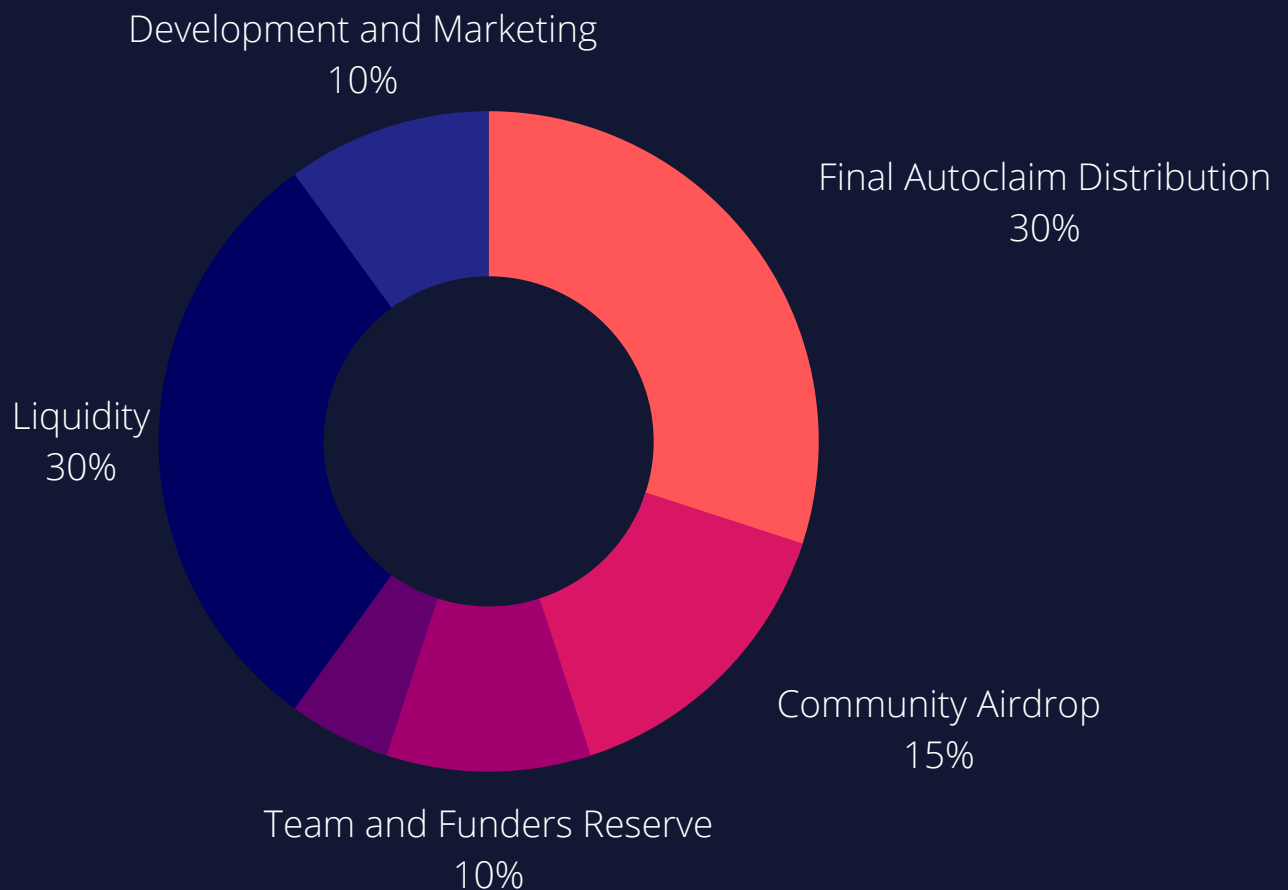

As a liquidity provider, you will receive Space Tokens from the exchange contract that you can then later use to withdraw your funds from the liquidity pool. As long as you have cryptocurrencies in the liquidity pool, you'll receive part of the fee paid by traders when they trade coins.

The fee is added to the liquidity pool and distributed proportionally to all current liquidity providers.

As Liquidity Pools make trading on DEX possible, anyone can become a liquidity provider as long as they can supply an equal amount of both BNB/BUSD and SPACE to an exchange contract on PancakeSwap.

Tokenomics

Initial Supply

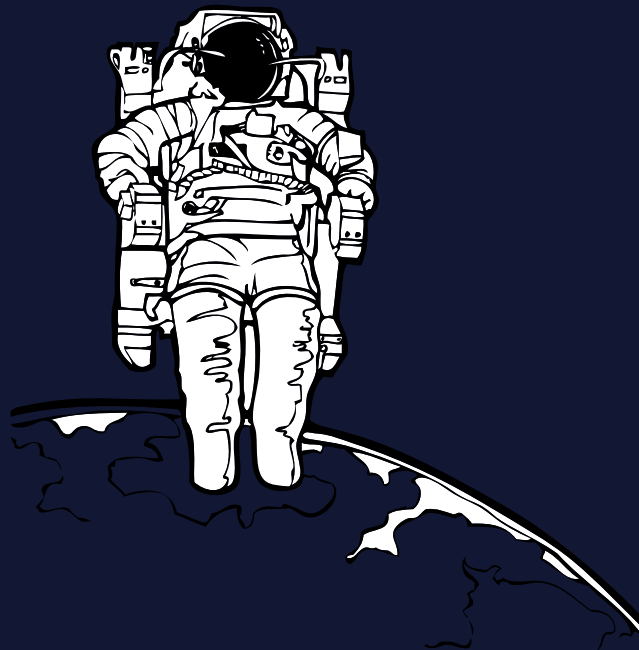

Dev & Marketing Wallet
Team & Funders Wallet
Community Airdrop
Liquidity
Final Autoclaim Wallet

350.000.000 SPACE

35.000.000 SPACE
35.000.000 SPACE
52.000.000 SPACE
105.000.000 SPACE
105.000.000 SPACE

Reward & Burning Emission

- 4% of each on-chain transactions is given to Space Token holders
- 1% is burned in order to make this token deflationary
- 1% is sent to a charity wallet for later distribution to a community-nominated Organization which supports space exploration, human spaceflight and robotic spaceflight.

Roadmap

1- Short Term Roadmap and Milestones

1st Airdrop Launched

1000 Twitter and Telegram Members

Integration to Final Autoclaim

More Aggressive Marketing, influencer outreach effort

More Tutorials on Medium

First Listings on Folio or DEX

2- Long Term Roadmap

April 2021

Token and Website Launch

May 2021

Integration to Final Autoclaim
& Airdrop Distibrutions

June 2021

SPACE Staking
and Holder Bonuses
on Final Autoclaim

Summer 2021

Contract Audits and Listing on
Coingecko / CMC

October 2021

Listing on other DEX

End 2021

Space NFT Marketplace
API for crypto faucets

January 2022

Space Swap and DAO
